

Performa

HETEROGENEOUS VINYL SHEET

No compromises

At Tarkett, we recognize that flooring solutions must sustain the everchanging needs of flexible spaces, which is why we take a Right Product. Right Space. approach to everything we create. Available in 6- or 12-foot rolls for added speed and flexibility during installation, Performa delivers all the style and strength you need at a price your project can afford.

Each Performa design features the look of natural wood or stone—combining beauty, strength, and value in one comprehensive solution. The entire collection is Certified **Asthma & Allergy Friendly**® by Allergy Standards Ltd to support better indoor air quality for everyone in the space. With contemporary visuals, a durable polyurethane coating, and 25-mil wear layer, these stylish designs help you create safe, inviting spaces on time and on budget.

Every step matters™

Tarkett's holistic approach to sustainability is woven into the fabric of how we do business and sits at the heart of our day-to-day decision making.

For decades, we've been scrutinizing every detail of our business for its impact on resources like soil, water, and air—because when you're trailblazing a more sustainable future, **every step matters.**

These three values help us stay the course when it comes to sustainability.

**Transparency
you can trust**

We subject our products to relentless scientific scrutiny and third-party testing, then provide customers with radical transparency about our materials, operations, and corporate business practices.

**Circular
economy**

We're committed to creating a circular economy where nothing goes to waste by designing products with their end of life in mind. This means always interrogating the health, safety, environmental, and social impacts of our materials.

**Healthy
impacts**

We've made material choices across our entire portfolio that support better indoor air quality and better outcomes for every living thing. Responsible flooring design not only improves aesthetics; it directly impacts the health of the people who occupy interior spaces.

The **proof** is in the numbers.

**Holistic
approach**

94%

of our raw materials are third-party assessed for their impact on human and environmental health based on Cradle to Cradle criteria.

69%

of raw materials are abundant, rapidly renewable, or recycled.

13

zero-waste-to-landfill manufacturing plants

2.1 million lb.

of flooring recycled in 2024 in North America

**Certifications
you can trust**

2011

started working with EPEA to integrate Cradle to Cradle principles into every facet of our business

2013

first commercial flooring Certified **Asthma & Allergy Friendly®**

2022

Powerbond® RS is the first soft surface product in the industry to be Certified **Asthma & Allergy Friendly®**.

**Transparency
you can trust**

100ppm

raw materials content revealed down to 100 parts per million

When most manufacturers reveal raw materials content down to just 1,000 ppm, there's simply no contest.

We've been providing Material Health Statements since 2013 to give you peace of mind about the content of our products.

**Setting
the standard**

99%

of flooring solutions have low VOC emission levels—10x lower than the most stringent world standards.

100%

ortho-phthalate-free vinyl production; first company to eliminate ortho-phthalates from all products

**Global
excellence**

2010

first flooring manufacturer to join the UN Global Compact

2016

Began reporting to the Carbon Disclosure Project (CDP). In 2025, Tarkett scored A, the CDP management level.

2020

first assessment by EcoVadis. In 2025, Tarkett's score of 86/100 earned us a Platinum medal and placed us in the top 1% of rated companies.

2023

Climate target approved by SBTi (Science Based Targets initiative). Targeting 30% GHG emissions reduction and increase of 30% recycled content across all products by 2030.

At Tarkett, social and environmental responsibility aren't add-ons. They're woven, stamped, and sealed into everything we do. **But more importantly, we don't just say this, we prove it.**

Transparency documentation

At Tarkett, transparency, social responsibility, and environmental stewardship aren't add-ons—they're part of everything we do. By partnering with ecomedes and mindful MATERIALS, we make it easy for you to explore our sustainable flooring product options, their product certifications, green building systems, and federal standards support documents. Visit [Tarkett.ecomedes.com](https://www.tarkett.com/ecomedes) to learn more.

Sustainability attributes

HETEROGENEOUS SHEET

Product emissions decarbonization:
ClimeCo Certified Product™ decarbonization program available upon request

Healthy materials:
94% raw materials third-party assessed; ortho-phthalate-free

Indoor air quality:
FloorScore® certified; CDPH 01350 v1.2; Certified **Asthma & Allergy Friendly**®*

Responsible end of use management:
Part of Tarkett's ReStart take-back and recycling program

*(Performa)

ReStart is Tarkett's third-party certified reclamation program.

To learn more about the ReStart program, scan the QR code or go to commercial.tarkett.com/Restart

The Asthma & Allergy Friendly® Certification Mark is a Registered Certification Mark of Allergy Standards Ltd.

Specifications

HETEROGENEOUS VINYL SHEET

Technical Data	Performa	Performa
Type of Floor Covering	ASTM F1303	Heterogeneous Vinyl Sheet
Classification	ASTM F1303	Type 1, Grade 1, Class B
Wear Layer Thickness	ASTM F410	.025" (0.6mm)
Polyurethane Reinforced		Yes
Total Thickness	ASTM F386	.080" (2mm)
Weight/yd ²		5.47 lb.
Residual Indentation	ASTM F1914	Passes
Flexibility	ASTM F137	Passes
Static Load Resistance	ASTM F970	250 psi ≤ 0.005" (*Modified 2000 psi: ≤ 0.005")
Slip Resistance	ASTM D2047	≥ 0.5 SCOF
Flame Resistance	ASTM E648	Class 1 (>0.45W/cm ²)
Flame Test- Canada	CAN/ULC S 102.2	FSR 225 / SDC 275
Chemical Resistance	ASTM F925	Passes
Resistance to Heat	ASTM F1514	ΔΣ ≤ 8
Resistance to Light	ASTM F1515	ΔΣ ≤ 8
Colors		15 Wood, 3 Stone
Roll Length		75'
Roll Width		Available in 6' and 12' widths
Warranty		10 years

* Static loads greater than 250 psi fall outside of the scope of the ASTM F970 test method. Modified static load testing does not provide information related to the long-term exposure and the residual indentation of an installed floorcovering system which includes the subfloor, adhesive, underlayment, and cementitious patching/leveling compounds. Residual indentation(s) may remain visible in any resilient flooring installation, however, overhead lighting, natural lighting and the application of a gloss floor finish may increase the appearance.
